Subject: Larry Persily/DC Governor's Office

I am pleased to let you know that Larry Persily has accepted the Palin administration's offer of employment in the DC office. He will start in about three (3) weeks.

I am quite excited. I won't say it publicly, but I think that Larry, in conjunction with Sam Bishop, Allison Nyholm, and our support staff, gives us the best team we've had in my time here. Alaska is facing some significant challenges in DC, and the new group, along with our colleagues in Alaska, helps provide the capacity to prevail.

Thanks very much for working with me to recruit Larry and Sam. Meg, Larry and I would like to work with you on a press release, as was the case with your release announcing Sam's appointment.

Please note that my email address has changed. My new email address is jwkatz@alaskadc.org. Thank you .

Subject: Urgent

Sarah et al, I am getting more info from my clients saying the oil industry is really gearing up local "business leaders" to oppose AGIA. They are having a big lunch this week all organized by Jim Jansen from Lynden (one of our arch enemies in the campaign) I am suggesting a press conference by sarah in advance of this saying she is aware this is going on and that the boards of these organizations need to consider the will of the people before they take any traitorous actions.

The election was a referendum on the stranded gas act and the producers monopoly over the gasline and the people clearly spoke. This clearly is a turning point for Alaska, just like wally said in his oped on Sunday. The choice will be whether alaska charts its own destiny or whether we will be dictated to by outside corporations, just like we were when the outiside fish companies controlled alaska. That's why we fought for statehood in the first place.

They will pull out all the guns for the finance committees which will be our toughest committees. I have heard they are planning to fly in employees and other businesses to testify.

I will write more as I hear it.

Subject: RE: State Employee Recognition

It is news to me that we would postpone due to AGIA. Things may be hot and heavy with the many closeout items prior to the legislative adjournment but I do not see why we could not do a short event. It would help the executive branch employee's morale.

Mike

Subject: State Employee Recognition

Governor:

I've been told that your scheduling and press folks would like to postpone the Governor's Denali Peak Awards due to concerns about stepping on stories about AGIA during the week of May 9. May 9th is Employee Recognition Day. With all due respect - this event isn't going to be eagerly covered by the press anyway. We're hopeful next year that it is, but we're realistic for this year. Would you reconsider with the understanding that the event is more important to the employees than to the press - the plan would be for you to be in Juneau and I would be in the ANC location to hand out awards (since employees are nominated from all across the State). Since we have closed nominations, we don't want to

lose the momentum we already have, by delaying until after session.

I questioned whether employees really would care about this kind of a program before we got into it and was assured they do care. Your and my presence will make a difference and it's one small thing we can do, while we get better information about our recruitment and retention problems.

On that note: I'll be coming to you after session to ask about Privileged or Personal Materi Privileged or Personal Material Redacted

With regard to contract negotiations, you know we have settled two of the eight contracts. I will work the Finance Committees with John Bitney and whoever else to get the funding. As I've been telling Mike Tibbles, Privileged or Personal Material Redacted Privileged or Personal Material Redacted Privileged or Pers We're working to quantify what it all means. I'm just giving you a heads up on what I'm thinking as we get through the session and focus our efforts on these other issues (after PERS/TRS).

Thanks for your consideration.

Sorry, but we don't have his pants here!

The story is that Charles Lindbergh was a guest at the House and needed his pants ironed, so he asked Mrs. Hickel if the housekeeper/staff would press them. She ironed them herself; since she was too embarrassed to let him know that she didn't have a housekeeper. My understanding is that he took his pants with him... :)

MESSAGE:

I know it sounds a bit far-fetched but I am concerned about the status of Charles Lindbergh's Pants. I

know, I know, there are many more pressing issues, but if I remember correctly, they are

kept in the

Governor's Mansion, and aired and ironed periodically. I remember the last time the media reported on the

condition of the pants was during the Hickel administration. I am not sure, but I believe they are

khakis. Please don't spend any of your time on this but if you can delegate it, I would sleep a little

easier.

Many thanks,

Ray Imel

Subject: RE: Barrow

We / and they certainly can't set the agenda until we know if the Governor is going to be there. The trip will not happen at all without the Governor because the LG was already there and it does us little good to send the Cmsr w/o the Governor. However, that being said, the main event would be an AGIA town hall meeting. I know that Barrow residents and NS Borough residents would have other ideas, too – including a luncheon function, a whaling function (just to snowmachine and see a camp or two). It will accomplish, at the very least, an AGIA resolution promoting passage and good will among the residents who were very excited the first time around. If the Governor goes, Cmsr. Irwin and Joe Balash would go. They are available on these dates – Fairbanks on Thursday and Barrow on Friday.
